

Emerson Callanta

I've finished an engineering degree and earned a master's in education. Completed the Basic Code Enforcement Officer Course at Teas A&M University (Texas A&M Engineering Extension Service). The course covers topics to include constitutional protections as well as authority granted by Texas Law, procedural information regarding proper administration of local code compliance programs, and best practices related to house, construction, property maintenance, occupancy levels, and both electrical and fire safety, and residential proper signage regulations.

Panayiotis Melas

My wife and I with our 2 girls have been SCR residents since we built our house here, over nine years ago. We are excited about living in a community that has so much to offer to its residents, and we have loved being apart of this community. I feel the civic duty to

contribute back to our community through serving in the HOA Board and become involved in the critical process of continuing to improve our way of life by seeking new ways to identify and act upon the needs of the community. I believe that my professional background as a Project Manager, and a Team Manager which is essentially tasked with making ideas into reality and my extensive experience in functioning as part of a high performing team an provide a great value to our community's HOA Board.

Michael Williams

Former VOBB Board Member. VOBB resident since 2012. Served on an HOA Board in Clear Lake area when I resided there. Retired from Commercial Banking September 2024. Now that I have retired, I find I have more time for community service.
